

## Factsheet

# Fivestargrass

FarneK Avireal is a joint venture company between Khalifa Juma Al Nabooda Group of the UAE and Avireal AG of Switzerland. With seven offices throughout the UAE, the company has grown into one of the region's foremost property and sustainable facilities management outsourcing companies.

FarneK Avireal provides a wide range of energy saving and cost effective products, aimed at reducing carbon emissions. Fivestargrass is one of these sustainable products

### How fivestargrass saves the Environment

Believe it or not, it is easy being green. Reducing your shower time by just one minute can save 1385 liters of water a year. Not hosing down your patio or driveway can save 3650 liters. And filling your bath tub halfway can save 13870 liters. Just imagine how much water you can save by installing a fivestargrass artificial grass system. When installing fivestargrass artificial grass for home landscaping alone, it can save easily tens of thousands liters of water per year. And for average-sized public landscape projects, that number skyrockets to millions of liters a year.

### Advantages of fivestargrass

- Premium quality with a very natural look
- Water conservation
- Always green and smooth surface
- Low maintenance costs (no mowing or fertilizing)
- CO<sub>2</sub> neutral during its product lifecycle
- UV – and weather influence resistant
- Absolutely safe for children and pets
- No insects ( such as mosquitoes and dengue fever)
- Environmentally friendly
- 7 years guarantee
- Wide product range for every type of application
